Re: **WT Docket No. 19-180**
Aviation Spectrum Resources, Inc.
Ex Parte Notice

Dear Ms. Dortch:

This is to provide notice that on October 10, 2019, Kris Hutchison, President of Aviation Spectrum Resources, Inc. ("ASRI"), Andrew Roy, ASRI's Director of Engineering, and I met with Messrs. Roger Noel, Scot Stone, Tim Maguire, and Jeff Tobias of the Wireless Telecommunications Bureau to discuss ASRI's pending waiver request associated with the above-referenced docket. We emphasized that grant of the waiver before the end of this calendar year would greatly facilitate the continued roll out of the Data Comm system in support of the FAA's efforts under that agency's NexGen initiative to upgrade the air traffic control system employed to manage the National Air Space.

Please contact me with any questions concerning this matter.

Respectfully,

David E. Hilliard
